### Do you require assistance to navigate through the new world of the NDIS?

IDEAL Placements is the provider of choice to assist and support a participant with a disability to work towards their goals, objectives and aspirations. Our service supports their choice to become active community members.

IDEAL Placements have been employment specialists for over 20 years for people with a disability, assisting participants to engage in meaningful and sustainable activities such as sporting or cultural activities, preparation for a working environment, job ready activities, training, work experience, volunteer work and employment.

### Free Expert Advice and Planning Sessions

IDEAL Placements prides itself on providing a holistic approach to all people with disabilities, across all the programs we deliver. We work closely with the participant, family or carers and other networks in their lives to ascertain what reasonable and necessary supports are required to assist a person with a disability to have choice and control over their life decisions.

At IDEAL Placements, we use a person centred, strength based approach to assist and support the person with a disability through the National Disability Insurance Agency (NDIA) planning sessions. On 1 November, people with a disability who already access blocked funded programs, Your Life Your Choice or has an eligibility statement from Disability Services will require a planning session with NDIA to access their needs.

Pre-planning is recommended to be 'Plan Ready' for the NDIA planning session. It is vital that the NDIA are aware of all supports required in a person's life to enable them to live a normal life. With the NDIA allocation of funds, the people with a disability will have more choice and control over how, when and where their support requirements are provided. NDIS provides the assurance that you will receive, the reasonable and necessary support through all stages of your life.
